

Insurance Disclaimer

Dear Patient,

Interventional Endocrinology is a unique and rapidly growing form of alternative medicine, which is not recognized by the insurance industry, making it a non-reimbursable service.

More so, due to both state and federal issues relating to billing for office visits, and laboratory testing, we have been advised by legal counsel to disassociate from all forms of third party insurance programs. We therefore are not contracted nor participate with any insurance companies, and no longer supply the following:

| | |
|---|---|
| 1 | Insurance Billing Forms |
| 2 | Standardized Serviced Codes |
| 3 | Standardized Diagnostic Codes |
| 4 | Transmit any information to any insurance company or their representatives. |

Our bill contains pertinent information regarding your office services and purchases. This form was generated for your personal records only, although: patients have submitted it to their insurance company with a claim for reimbursement. This frequently causes subsequent inquiries by the insurance company to which we do not respond.

In the event that this office is required to provide additional information, a fee will be charged to you that is equivalent to a time-relative office visit.

I have read the aforementioned and understand the issues presented. In the event that I submit my office Bill to the insurance company I agree to pay any additional fees relative to subsequent inquiries.
